

## LARRY KING – REAL LEADERSHIP FOR ARIZONA’S FUTURE

Arizona and America needs need leadership in Congress. For Larry King public service has always been a cause – not a career. The great tradition of strong Arizona Senators and Representatives who were motivated by a deep concern for the people and doing what is right for Arizona and the nation serve as Larry’s role models.

Larry King believes we can be an even better America based on the key ideas that have always made our country great. Leaders must respect the citizens they serve. Government must be open and transparent. Citizens have a right to criticize the government and hold their leaders accountable. In exchange, citizens should serve their country in any capacity they can.

Larry’s combination of public service and statesmanship, dramatically different from the current representative’s approach coupled with his responsible stance on domestic, fiscal, and security issues, make him uniquely qualified to win in 2006 and serve as our Representative for the 5<sup>th</sup> Congressional District in Arizona.

### Larry’s Agenda for Arizona and America’s Future

- Restore accountability to Congress
- Stop mortgaging our children’s future by reducing runaway budget deficits and restarting America’s economy by investing in jobs and homeland security.
- Fight for real and meaningful tax relief for working families.
- Supporting America and Arizona’s families with better education and access to health care.
- Promote an energy policy that makes us less reliant on foreign oil through conservation and use of clean renewable sources of energy.
- Ensure the Federal Government strengthens America’s borders and its control of immigration.
- Protecting a woman’s reproductive decisions as personal and private.
